Dear Madeline:

I can confirm that For Rent Apartments Ltd have been renting my flat since June, 2014. They use the apartment for short to medium term lets for business people and visitors to London. I rented the apartment furnished, which they have maintained to a very high standard during this term.

Where necessary, I deal directly with Andrew Marshall and Pamela Cobb, who manage the business with openness, integrity and professionalism. This was a very good decision as I travel a lot and I needed to be assured that my central London flat well maintained and in particular well looked after. Andrew and Pam ensures both of these are done to very high standard.

If you have any additional questions please do let me know. You are very welcome to call me to discuss further.

Sincerely,
